SOUL GROUPS: GIFTS AND CHALLENGES—WORKSHEET 1

In module three, we covered the soul groups from the Earth souls to the Blueprint Changers. Now complete the worksheet below for these soul groups.

This is for your purposes, as an Akashic Record reader in training, so that you may have a thorough understanding and overview of each soul group before you dowse on your practice clients' soul groups.

*For the fourth column – please leave this column for later, unless you have done my Intuitive Awakening course for beginners (in which case you can refresh your knowledge of the archetypes by reading chapter nine of that course). If you have not done the Intuitive Awakening Course, don't worry – you will learn about the archetypes later on. Once you have learned about the archetypes, you will be prompted to come back to this worksheet to fill in the last column.

You can find the worksheet answers in the 'members' area.

Place of Origin/Blueprinter Soul Group	Which gifts and talents could you point out, related to the soul group, in a reading?	Which challenges and soul lessons might this soul group have?	Possible Archetype(s) Embodied by the Soul Group (*see page 145)
Earth	<ul style="list-style-type: none"> • Groundedness • An uncomplicated soul purpose • Engaged with the practical and down-to-earth sides of life • Not as likely to waste time over-analyzing the purpose of life or things here – they are doers • Connection to nature • Experienced in ‘how things work’ here 	<ul style="list-style-type: none"> • Often lacking in spiritual connection • Can see life here very simplistically, perhaps too simplistically • Naive in their outlook, spiritually speaking • No experience incarnating in other places 	<ul style="list-style-type: none"> • Protecting the environment – possible

SOUL GROUPS: GIFTS AND CHALLENGES—WORKSHEET 2

Now it is time to work with the detailed information that I provided on the soul groups from the Maldecians to the Sirians.

Obviously you do not need to pass on every detail about a client's soul group in a reading (and you will certainly not have time for every single detail!) Instead, you need to extract what is very helpful and useful for your client, and pass that on.

Please complete the following worksheet. This is for your purposes, as an Akashic Record reader in training, so that you may have a thorough understanding and overview of each soul group.

*For the fourth column — please leave this column for later, unless you have done my Intuitive Awakening course for beginners (in which case you can refresh your knowledge of the archetypes by reading chapter nine of that course). If you have not done the Intuitive Awakening course, don't worry — you will learn about the archetypes later on and can come back to fill in this column.

You can find the worksheet answers in the 'members' area.

Maldec	<ul style="list-style-type: none"> • Strong analytical ability • Serious, strategic, thoughtful and deliberate –consider their actions carefully 	<ul style="list-style-type: none"> • A tendency to ‘overthink’ things and be overly strategic in decisions • Lack of spontaneity possible • May find it hard to access emotions or give them much importance • Feeling displaced 	<ul style="list-style-type: none"> • Problem-solving • Analyzer

SOUL GROUPS: GIFTS AND CHALLENGES—WORKSHEET 3

Now we have covered more soul groups, from the Hadarians right through to the Spicans.

Again, for these soul groups you will not be passing on every detail in a reading (and you will certainly not have time for every single detail!) Instead, you must extract what is helpful and useful for your client, and pass that on.

Please complete the worksheet below. This is the same as the last worksheet and again it is for your purposes, as an Akashic Record reader in training, so that you may have a thorough understanding and overview of each soul group before you dowse.

* For the fourth column – please leave this column for later, unless you have done my Intuitive Awakening course for beginners (in which case you can refresh your knowledge of the archetypes by reading chapter nine of that course). If you have not done the Intuitive Awakening course, don't worry – you can fill in this column later on, once we have covered the archetypes.

You can find the worksheet answers in the 'members' area.

Hadar	<ul style="list-style-type: none"> • Loving, giving and kind • Bring the energies of unconditional love, community, togetherness, etc. • Good at working with others and enjoy company • Creative • Playful • Childlike • Tender-hearted and empathic 	<ul style="list-style-type: none"> • Enslaved Hadarians: may not see their own power, may have a lot of fear and be prone to phobias, which can make it hard to step into their power • Have an irrational fear of being taken advantage of which may give rise to paranoia or wariness around others, aloof, possibly slow to make friends • Dislike large organisations and government • Feel that the world is harsh and may get discouraged in their soul purpose as a result 	<ul style="list-style-type: none"> • Healing – in an indirect way • Nurturing and supporting • Relater • Compassion/ humanitarian? • Empath • Patience and tolerance – possible

		<ul style="list-style-type: none"> • Give unconditionally, which does not always make for successful relationships – instead they can be trampled on in relationships • Don't understand the concept of 'being cruel to be kind'
